

Surveys of homeless people show that the primary cause of lack of affordable housing.

In the past, long-term assistance lead to significant reductions in homelessness. Homelessness is not a personal failure.

Why are you homeless?
Focus on yourself.

How does the homeless union help me?

As a union, we could improve the quality of our lives dramatically. We could eat healthier, tastier food. We could move into better housing situations, but only if we come together.

There is no "us" or "we" without you - the person reading this.

Without you, there is no union. None of this is possible without you.

In 2020, only 1 in 10 out of all the people eligible for vouchers received them.

There are more people who want vouchers than there are vouchers to give out. Some people just won't get a voucher.

Even if you get a voucher, landlords may discriminate against voucher holders.

How do I join the union?

your questions.

A homeless union is a united group of homeless people.

Historically, homeless unions have taken over empty buildings or fought for more affordable housing.

Alone, we are weak. Our power is in our numbers.

Together, we can just get out of here

The homeless union exists because we all want to get out of here. We can't figure out how to leave without help.

If case managers can't find us housing, we can help each other instead.

I'm just trying to get out of here.

together, we can get out of here

XOXO,
the homeless union
